carried out. It is expected that the
work will be finished in about two
weeks.So far as the civil authorities are
concerned, Daniel Logan, the soldier,
will not be held responsible for his
act in killing a companion at the old
government corral during a drunken
carousal several weeks ago. The Terri-
torial grand jury yesterday declined
to return a bill against him, which
means he will be released from the
charge. A true bill was returned
against Chang Hoon, accused of as-
sault with intent to commit murder.

**LOS ANGELES COUPLE
AT MOANA HOTEL**
By the arrival of the last Pacific
Mail liner there came to Honolulu
Mr. and Mrs. Vernon Smith, and reg-
istered at the Moana Hotel as from
Los Angeles. It was generally un-
derstood, from what was said, that
they had been married something
over two years, but it now turns out
that they are actually on their honey-
moon, having been married shortly
before leaving the coast. This infor-
mation does not detract from the
charm of the affair, and Mr. and Mrs.
Smith will be in for congratulations
as soon as the story is known.
Mrs. Smith was a Miss Edna Ben-
nett, a very popular young lady of
Los Angeles.

**WILLIAM C. MOORE
IS SEEKING DIVORCE**Charging infidelity and naming one
"Houdette, whose full name is
unknown to the plaintiff," William
C. Moore has filed in circuit court a
suit for divorce from his wife, Eula-
lia Moore. He alleges the specific acts
of his wife occurred on the steamship
Sierra, on October sixteenth, seven-
teenth, and eighteenth, and that she
now is living at 2940 Ruby street,
Oakland. The couple were married in
Honolulu July 19, 1904, and have been
residing at 1464 South King street.The husband asks for the custody
of the children.**FIRE-PROOF THAT IS NOT FIRE-
PROOF.**There is too much confidence placed
in "fire-proof" buildings—a furnace
is "fire-proof" exactly the same as a
building is "fire-proof" and the con-
tents of a furnace will burn exactly
as the contents of a "fire-proof" build-
ing. The State Capitol at Albany in
New York was "fire-proof." The Cin-
cinnati Chamber of Commerce was
"fire-proof," and in each case every-
thing inside the building has gone—
burned out. Do not make a fetish of
the words "fire-proof." A powder
factory might be "fire-proof."**ROBERT BARR DEAD.**LONDON, Oct. 22.—Robert Barr,
the famous novelist, died during the
night at his residence at Wolding-
ham, Surrey. He had been ill a
month with heart disease. Barr work-
ed as a newspaper man in Canada
and later in the United States and
England before he became known as
a novelist. Dorn in Scotland, he went
to Canada as a boy, did his first
journalistic work on the Detroit Free
Press and spent his mature and most
productive years in Great Britain.
Barr began his literary career as a
short story writer, but made his great
reputation as a novelist. He was 62
years old.**VISIBLE SUGAR SUPPLY.**WILLET & GRAY, October 24:—

**CUBA CROP
2,000,000 TONS**Willet & Gray's Journal for Octo-
ber 24, gives estimates of sugar crops
for 1912-13. While they show a de-
crease in cane sugar for the world,
they give Cuba more than two mil-
lion tons, or an increase of 205,000
tons.New cane and beet sugar crops of
the world are estimated to exceed
last season by 2,638,344 tons. At the
same time the consumption is nor-
mally increasing and is calculated to
receive a stimulus from low prices.Following is Willet & Gray's review
of the raw sugar market at the date
mentioned, excepting quotations an-
ticipated by cable:One sale of Cuba Centrifugal yester-
day to the American Refinery at
2 11-16c per lb. c. & f. reduced the
market quotation from 4.11c to 4.06c.
per lb. for 99 degree test.All estates in Cuba have now ended
work on the old crop, and the final
output, as reported to us by Messrs.
Gunn & Meier, is 1,985,884 tons, or 83,
864 tons in excess to their original es-
timate.The favorable crop weather condi-
tions in the island and extensive
planting make it probable that even
this large crop will be exceeded by
the output of the growing crop, and
possibly a crop of 2,100,000 tons may
be gathered, with good weather and
satisfactory labor conditions.The question of labor may at times
during the season be the cause of
some anxiety.Probably little, if any, of the un-
sold remaining stocks in Cuba will
come this way, and our local needs
must be supplied from other sources,
and especially from Louisiana for
cane sugar and from Europe for beet
sugar; 25,000 tons of the latter came
into port this week from purchases
made some time ago at higher than
present values, but these sugars are
actually needed by refiners at the
present time, and further supplies
must be brought forward before the
new Cuba crop sugars are available
for use.Buyers show no interest in sugar
unobtainable for immediate use and
hence offers to sell Cubas for future
delivery are neglected at 2 1/2c c. & f.
for December, 2 1/2c for January
and 2 1/2c for February deliveries.**STOCKS ON COAST.**SAN FRANCISCO, November 6.—
